

Cryptogram 1: optional help

Read one stage at a time. Cover the lower stages with another sheet if you want to avoid seeing the next hint.

Stage 1: Z stands for T

Put T beneath every Z. The first word starts with T.

Stage 2: I stands for H

Add H everywhere this coded letter appears. The first word now starts TH.

Stage 3: T stands for E

Add E. The first word is THE. Carry all three letters into the other words.

Worked start: carry the same letters across

Z	I	T	S	O	Z	Z	S	T	K	T	R	A	O	Z	T	O	L		
T	H	E			T	T		E		E				T	E				
I	O	R	O	F	U	X	F	R	T	K	Z	I	T	Z	Q	W	S	T	.
H									E		T	H	E	T				E	

Only the three named mappings are filled above. Keep other answer lines blank until you have another guess. The complete answer is in the separate key file.

Cryptogram 2: optional help

Read one stage at a time. Cover the lower stages with another sheet if you want to avoid seeing the next hint.

Stage 1: M stands for A

The single-letter word is A. Write A beneath its coded letter.

Stage 2: N stands for B

Put B beneath every N. That letter starts five words in this puzzle.

Stage 3: S stands for O

Add O everywhere this coded letter appears. A doubled code letter means a doubled answer letter.

Worked start: carry the same letters across

R C	J S Y D V	M	N G Y C	N Y U U S D
_____	_____O_____	A	B_____	B_____O_____
N C I K V C	U L C	N K Z	N S S H .	
B_____	_____	B_____	B O O	

Only the three named mappings are filled above. Keep other answer lines blank until you have another guess. The complete answer is in the separate key file.
