

Winter window

Study the pictures and their places. Cover this page before writing on page 2. Keep it covered until everyone has finished.

When time is up, turn to the empty window. Write the picture names, or sketch them, where you remember them. No peeking for 2 minutes.

What was in the window?

Write or sketch each remembered picture in one pane. When the time ends, uncover page 1 and compare. Each picture can score only once.

1 point for each different correct picture, plus 1 if it is in its original pane. A repeated picture scores only its best occurrence. Maximum 24. Tied totals share the win.
